

OPT OUT OF 3132 FORM
2020/2021

Saint Anthony's High School
Mathematics Department

**Application for Placement out of Transitional Algebra
(two year program) into Algebra (one year)**

Student's Name: _____
Please Print

The teachers of Algebra I must teach the course at an appropriate pace which cannot be modified for students who need reinforcement of seventh and eighth grade math topics or need to go at a slower pace. That is the purpose of the transitional course.

If your child is placed in Algebra I it is likely not possible to change this course during the school year.

I am aware of the purpose of Transitional Algebra (2 years of algebra) and request my child be placed in Algebra instead against recommendation. I take full responsibility for this decision.
