

Council for American Private Education

## Contact Congress on COVID-19 Relief March 24,

2020

Dear Friends of Religious and Independent Schools,

The US Senate is currently considering a coronavirus relief package that includes aid to K-12 schools. Currently, there is language in the legislation allowing non-public schools to receive relief. However, it appears that some are attempting to remove this language.

Please use CAPE's [Legislative Action Center](#) to urge senators to make sure that private schools are not excluded from Congress' COVID-19 relief package. Thank you for your help.

Sincerely,

A handwritten signature in black ink, appearing to read "Michael Schuttloffel".
